This Project is based on regulations which obligate municipalities to manage their annual expenses. We focused on one subsection in the regulation and it is based on a law that stipulates local governments to keep their personnel expenditures below a limit (30% of total budget) and detect which party's municipalities are spending more than the legal limit.

According to Paragraph eight of the 49. article of 5393 numbered municipalites law: Municipalities personnel expences cannot be more than %30 of total expenditure.But if the population of the municipality is less than ten thousand, their personnel expenditure can be well into %40 of the total expenditure. Every municipality has listed reports according to their party for the last three elections and classified according to its populatian higher than 10.000 or not because of the regulation's rules.

Parties	Number of Reports	less than %30	more than %30	more than %40	more than %30 but pop. İs less than 10.000	not complying	Deficient info. In the annual report

<u>With this research Project, we gain approximate information about</u> <u>municipalities caring of regulations and which parties' local</u> <u>governments are making their reports more elaborate and</u> <u>accountable.</u>

Overall: more than 53.9 percent is complying with the regulation More than 14.8 percent isn't complying with the regulation In the 31.2 percent, reports haven't enough information to detect compliance.

AKP: 67 of 114 is complying, 16 of 114 isn' complying and 31 of the reports haven't enough information.

CHP: 16 of 41 is complying, 10 of 41 isn't complying and 15 of the reports do not include enough information.

MHP:13 of 22 is complying, 1 of 22 isn't, and 8 of the reports include deficient information to detect.

HDP/BDP/DTP/DBP: 4 of 10 is complying, 1 of 10 isn't and 5 of reports don't include enough information.

In the earlier stage of the Project, we started with listing the expenses and revenues from the annual reports that have picked. I listed about 189 report from average sized and different sociocultural districts.
